

Dear Friends

Following the acceptance of the (SI) ZFDS proposal by the FIFe General Assembly, regarding HD testing of MCO, the MCO Breed Council wishes co-operation between members, who now need to decide what is required when testing starts 1.1.2020.

With this in mind, we try to gather backup information and kindly ask you to share this questionnaire to the Maine Coon Breeders among your members.

Our initiative aims at getting an estimate, as precise as possible, of how many breeding cats, potential and current, will have to be tested before the resolution is valid on 1.1.2020.

The links included in this letter lead to a Google tool in which we translated the survey questions into different languages used by the FIFe members.

The results will be handled anonymously, in accordance with the most recent regulations in force regarding privacy protection (GDPR).

Trusting in your collaborative feedback, we send our best greetings

Carla Rotini

Secretary of MCO Breed Council
